

Christopher Sibley, RN, MS

Christopher L. Sibley, RN, has supervised the professional nursing staff at Occupational Health Consultants (OHC) for 15 years and, recently, has been promoted to Business Administrator. He has over 20 years of experience which includes positions in Hospital Emergency Rooms and Out-Patient Clinics. His broad clinical nursing experience and technical skills has allowed Occupational Health Consultants to deliver state-of-the-art services over a wide range of disciplines. He received training as a cardiac specialist and was in charge of the Internal Medicine Clinical at Kimbrough Army Community Hospital, Ft. Mead., MD. In addition, since his departure from the military, he became state certified as a radiology technologist and maintains CPR certification. Mr. Sibley authored and co-authored several published articles on his experience in *vaccinia* (smallpox) immunizations at the OHC Clinic.
